INTRODUCTION

A Camrose County census was undertaken during the months of May and June of 2008, to determine an accurate population count. Census data was collected as of May 1st and continued to June 15th. A follow up was done in an effort to try to get information from households that census workers were not able to contact after a minimum of three callbacks. The follow up contacts were completed by July 5, 2008.

Camrose County was divided into 16 enumeration areas consisting of two to four townships each depending on location and estimated dwellings in the townships. Most census areas consisted of three townships. Fifteen census workers were hired and trained in mid April to collect data in a common systematic manner to provide information as requested by Camrose County.

SUMMARY
The Camrose County 2008 Census was carried out with a completion rate exceeding 99.5%. This was possible because of the diligence of our census takers and the kindness and cooperation shown by Camrose County residents. The support given by Camrose County Administration staff is greatly appreciated. Mr. Steven Gerlitz, Ms. Carol Gagne, Ms. Jody Yuha and Ms. Kim Shyshka provided invaluable support and assistance in getting the project completed.

Thank you for the opportunity to serve Camrose County.
